

**Homework**

The District believes that homework is a constructive tool in the teaching/learning process when geared to the needs and abilities of students. Purposeful assignments not only enhance student achievement, but also develop self-discipline and associated good working habits. As an extension of the classroom, homework must be planned and organized, must be viewed as purposeful to the students; and should be evaluated and returned to students in a timely manner.

Teachers may give homework to students to aid in the student's educational development. Homework should be an application or adaptation of a classroom experience, and should not be assigned for disciplinary purposes.

Homework may be assigned for one or more of the following purposes:

1. Practice: To help students to master specific skills which have been presented in class.
2. Preparation: To help students gain the maximum benefits from future lessons.
3. Extension: To provide students with opportunities to transfer specific skills or concepts to new situations.
4. Creativity: To require students to integrate many skills and concepts in order to produce original responses.

The purposes of homework assignments, the basis for evaluating the work performed and the guidelines and/or rules should be made clear to the student at the time of the assignment.
